

NUR ARISSA BINTI MOHAMAD HANAPI

Diploma in Information Technology (Software & Application Development)

Address: D'Casa Condo, Jalan Wawasan Ampang 1/10 68000, Selangor
Phone: +6011-5112 6150
Email: rissaworkk@gmail.com

INTERNSHIP OBJECTIVES

Motivated Diploma in Information Technology student specializing in Software and Application Development, seeking an internship opportunity to apply my skills in programming, web development, and database management. Experienced in developing academic projects using PHP, MySQL, Java, Kotlin, and Firebase. Eager to contribute to real-world projects, strengthen my technical skills, and gain hands-on industry experience.

EDUCATION

Diploma in Information Technology (Software & Application Development) **August 2024-Present**
Politeknik Sultan Idris Shah

Sekolah Menengah Kebangsaan Taman Kosas **January 2018-March 2024**

- Computer Science
- Accounting
- Home Science

WORK EXPERIENCE

Veesee Collections **May 2024 - July 2024**

- Assisted customers in selecting accessories and provided product recommendations based on their preferences.
- Delivered excellent customer service by responding to inquiries professionally.
- Managed cashier transactions, including cash, card, and e-wallet payments.
- Maintained attractive product displays and ensured the store was clean and well-organized.
- Monitored inventory levels and assisted with stock replenishment and stock-taking activities.

PROJECT

e-LATE SMART STUDENT ATTENDANCE MONITORING SYSTEM **July 2026 - October 2026**

- Final year diploma project at Politeknik Sultan Idris Shah
- Designed and developed a web-based system to manage student attendance.
- Implemented a tardiness management module to monitor late attendance, record student check-in data, and generate attendance reports.
- Designed a MySQL relational database to manage student attendance records and support attendance report generation.
- Applied the Software Development Life Cycle (SDLC), including system analysis, design, development, testing, and documentation.
- Improved the efficiency of attendance tracking and reduced manual record-keeping through digital automation.

  Technologies: PHP, MySQL, HTML, CSS, JavaScript

Sunglasses Catalog Management System

- Coursework Project at Sekolah Menengah Kebangsaan Taman Kosas
- Developed a web-based sunglasses catalog system to showcase products and their details.
- Designed product catalog features, including product images, descriptions, prices, and categories.
- Implemented administrator functions to add, edit, delete, and manage product information.
- Designed and integrated a MySQL database for product and inventory management.
- Developed a user-friendly and responsive interface to enhance the browsing experience.

ACHIEVEMENTS AND VOLUNTEERING

- Corporate Social Responsibility (CSR) Volunteer at Pantai Bumi Hijau under PSIS
- Achieved Dean's List for every semester

TECHNICAL SKILLS

PROGRAMMING LANGUAGES AND DATABASES

- Programming Languages: PHP, Java, Python, JavaScript
- Web Development: HTML, CSS
